Dear Dan

On behalf of the Government of Colombia and myself I want to acknowledge your professionalism and expert advice assisting us to search and secure appropriate office space in Calgary, to open the new Consulate of Colombia in Alberta.

We were fortunate to engage you early in this process which allowed us to inspect and analyse several options before settling for the stunning heritage property you made available to our Mission.

Calgary hosts a large community of Colombians as well as dozens of corporations deeply involved in Colombia on trade, finance and oil production. The importance of this city to our economy has been duly addressed by the sort of premises you helped us find.

Please convey our grateful recognition to your partners and associates at Barclay Street.

Warmest regards,
