

BLACK TIP AQUARIUMS

Well, I got to say it's awesome that these guys accepted and worked with what I needed. I know a lot of places would turn me down with trying to find a place that I could afford, as this is my first time getting a storefront, but Myles took the challenge and was more helpful with finding a place for me. He went the extra mile and gave me lots of contacts too help me find what I needed.

Would highly recommend dealing with Myles Scheske, as he helps you a lot with every turn that comes up. He also would stay update with and give me updates on anything new or better.

10 out of 10.
